Margin File Requirements and Example

File Requirements and Important Notes

- File must be in .csv format
- No restrictions on the file name
- Required Columns: Product ID, Seller ID, Margin
 - Required columns must appear on the first tab of the file
 - No restrictions on the tab name
 - Column headers are not case sensitive
 - Columns can appear in any order
- Additional columns and tabs are allowed in the file, and will be ignored by LoanNEX at upload
- Margins can be applied for certain Sellers or Products at any time (i.e., not required to include all Sellers or Products in the import file)
 - Sellers and Products NOT included in the import file, will retain the Margin applied on the last Margin file upload. To remove a Margin from a Seller or Product, ensure the data is included in the Margin file upload, with a zero (0) margin.

- 8. Margins tab will display the Margin File upload history details:
 - a. Date Submitted date and time file was submitted
 - b. Batch Status status of file upload
 - i. Success at least one row was imported successfully
 - ii. Failed no rows were successfully imported
 - *iii.* InProgress refresh screen to see import results; file takes approximately 1-3 seconds to load
 - c. FileName name of the file uploaded
 - d. # Loaded number of successfully loaded rows
 - e. **# Failed Validation** number of rows not uploaded due to failed validation
 - i. See <u>View and Troubleshoot Failed Margin Files</u> to validate failed rows

Effective Dating

Important Notes

- Effective Dating (Effective on: field) is not required
 - If <u>no</u> Effective on date and time provided, LoanNEX will upload the file immediately (*file takes approximately 1-3 seconds to load*)
- Effective Dating allows you to upload a margin file with a future date and time
 - Margins will <u>not</u> be applied in LoanNEX until the effective date and time
- Override a pending file, with an Effective on date in the future, by uploading a new file
- See <u>View Uploaded Margin Files</u> to view or download pending files
